4. State Publications Report
   The Joint Committee on State Documents continues to meet bimonthly:

   - Collections Access Management added 347 bibliographic records and 2,323 item records for state publications to the Voyager database from January through July, 2009.
   - Electronic Records continues to work with developing the dSpace tool for electronically archiving state publications.

   Reference and training librarians have developed a new series of online classes for state employees. The new classes are subject-specific and have focused on criminal justice, health and medical, education and environmental topics. Each class is divided between database searching and instruction on government web site use. Several new topics are under development, including human resources and statistics.
